ALUMNI FOOTBALL GAME @ Carsonville JULY 23th, 2010 7pm

Purpose

- To provide Peck graduates the opportunity to unite with fellow graduates and put the pads on one more time.
- Community fundraising event that raises money for current members of the football program to purchase updated equipment and supplies.

Fee & Liability Forms

- All participants must fill out and turn in a registration and liability form prior to getting their equipment. Your registration fee of \$50 should be turned in at the same time.

Equipment

- All equipment, will be provided for you. It is expected that you properly take care of the equipment while it is in your possession.
- 45 helmets are available (Sizes are limited and vary from medium thru x-large), if numbers exceed 45, some individuals may have to share a helmet if they want to participate.
- ***Return of Equipment:*** Equipment will be returned and handed in immediately after the game. A locker room will be provided at Carsonville for you to change your clothes. Someone will be appointed to collect the equipment at Peck following the game (Equipment needs to be sent out for reconditioning the Monday following the game so it can be issued to athletes for the 2010 season.)
- Failure to return all issued equipment will result in you being charged a replacement fee as indicated on the liability form.

Sportsmanship

- Please remember you represent the community of Peck while you are on the football field. It is expected that you demonstrate sportsmanship at all times while in the eyes of the community. Please remember the purpose of this event, everyone has a job to attend to on Monday. Most importantly, HAVE FUN!

Recommendations

In talking to Kingston, Croslex, and Sandusky, I have provided a list of recommendations based on how they approached their alumni games in the past.

- ***Practice Schedule:*** It is recommended you practice one day a week and twice a week the week prior to the game. I would encourage practicing Sunday evenings between 6-9pm. The field behind the softball field is available for practice use.
- ***Hitting/Contact:*** SAVE IT FOR THE GAME! It is recommended that you do limited hitting at practice. Too much contact prior to the game will result in you getting burnt-out before the game even starts. In addition to this, it will place you at risk of being beat up and tired prior to the game.
- ***Attendance Policy:*** I would encourage having a system set up for attendance. For example, in order to start, you must attend 75% of the practices.

****If I can be of any assistance at anytime, do not hesitate to let me know!****
